	<p>Scale</p> <p>This area is dedicated to scaling. Here you can scale the patterns horizontally or vertically or you can mirror patterns horizontally or vertically.</p> <p>To apply changes after scale setting, you must click on « Apply » button.</p>
	<p>Move</p> <p>In the move settings there are two boxes: one for horizontal (DX) and one for vertical (DY) movement. In these boxes you can enter the distance (positive or negative) for the pattern to be moved in the two mentioned directions.</p> <p>To apply the changes you must click on « Apply » button.</p>
	<p>Rotation</p> <p>In the rotation area, in a specific box, you must enter the pattern angle value in degrees.</p> <p>Under the angle value box are two more boxes in which you can set the pattern rotation center coordinates. These coordinates are set relative to the pattern origin, located in one of the pattern points; pattern origin is visible on selection.</p> <p>To apply changes after setting the angle value, you must click on « Apply » button.</p>
